HUNDREDS DIED OF STARVATION IN EVACUATED ITALY

Austrians Cut Off Food Supply Before Withdrawal—Towns Stripped of Clothing.

ROME, Nov. 8. (United Press).—Hundreds died of starvation in the evacuated districts of Italy, after the Austrians cut off their food supply just before the withdrawal, Major Lowell of the American Red Cross, arriving from the war zone, said today.

"The food situation in the evacuated districts is appalling," declared Major Lowell. "The populations, which received daily rations from the Austrians, were cut off from this source three days before the evacuation. Hundreds died as a result."

"We found sick and wounded Italians and Austrians who had been three days without food. In one town more than 100 had died of starvation; in another 150."

"Towns were absolutely stripped of everything in the way of food and clothing. The first day after the enemy withdrew we shipped into the liberated districts thirteen carloads of supplies and medicines. Five left the next day. Our twenty rolling kitchens are feeding 60,000 a day. Formerly they were attached to the American brigades; now they are attending to civilians."

"We have placed ourselves at the disposal of the Government for aid in the relief of the occupied districts and are establishing additional warehouses."

BERNE, Switzerland, Nov. 8.—The populations of Tyrol and Corailberg, the westernmost part of Austria, have appealed to the Swiss Federal Council to send food. The council sent the request to the French Ambassador who will transmit it to the Allied Governments. In the meantime, the Federal Council is studying means to extend aid as soon as possible to the two districts.

SHIP PLANT CLOSED DOWN.

5,000 Workers at Shoppers Island Notified to Take Day Off.

Work on 34 Government vessels at Shoppers Island came to a sudden halt today when 5,000 shipbuilders were unexpectedly notified to take the day off. The shipbuilders landed at the Battery and held an impromptu parade up Broadway, carrying an obelisk of the Kaiser and signs telling the shore shipbuilders have had in defeating him. The workers received no explanation of the layoff.

Two-Hour Quake Recorded. WASHINGTON, Nov. 8.—An earthquake of considerable intensity, starting at 11.50 o'clock last night and continuing until shortly after 2 o'clock this morning, was recorded on seismographs at Georgetown University Observatory. The distance from Washington was approximately 5,500 miles.
